

## HOW TO FIND THE CENTER

Place a brick upon your drawing table.

With chalk draw crosslines on the face of the brick from corner to corner. These crosslines are called *intersecting diagonals*.

The lines cross at the center of the face, marked *C*.

Draw other crosslines on the sides of the brick and on the ends.

Sketch the brick in perspective showing these crosslines.

The point where they cross always indicates the center (*C*) of the side regardless of the position of the brick.
